

ATOTI INTELLIGENCE

Smarter financial analytics with AI-powered tools

Atoti Intelligence – an open AI platform – brings the power of artificial intelligence to financial analytics. Helping teams move faster, make smarter decisions, and stay in control.

WHY ATOTI?

Control your IP and data Keep proprietary data safe. Atoti Intelligence runs inside your environment, giving you full control over data lineage, privacy, and governance.

Use your preferred LLM Atoti Intelligence is open and flexible. Swap in your firm's approved large language model (LLM) – no lock-in, no black boxes.

Real-time insights Get answers from live data, not stale snapshots. Atoti Intelligence connects directly to Atoti's high-performance query engine.

Fast time-to-value Designed for builders and users alike. Atoti Intelligence is easy to configure and delivers results quickly.

Smart tools that work out of the box Use intuitive AI-powered features like: **Visualize This** – Turn prompts into dashboards, **Auto Explain** – Skip the clicks and find the cause of changes instantly.

WHAT MAKES ATOTI INTELLIGENCE DIFFERENT?

- ✓ Built for finance, not generic analytics – understands the complexity of finance
- ✓ Real-time, multidimensional analysis – never stale
- ✓ Full transparency and auditability
- ✓ Seamless integration with your existing AI stack
- ✓ AI-powered tools built in
- ✓ Atoti MCP server provides zero shot integration
- ✓ Atoti AI agent with swappable LLM
